Nota illustrativa.

I colori di questa "Campionatura" sono stati scelti facendo riferimento alle caratteristiche originarie degli edifici che hanno costituito i nostri centri abitati quando si è dato inizio all'utilizzo delle tecniche costruttive tuttora in uso (mattoni, pietra da cantone, intonaci, tegole in laterizio, serramenti in legno...).

Le stesse prescrizioni cromatiche vanno estese agli edifici isolati ed agli edifici di nuova costruzione: questi ultimi devono avere immagine coerente con l'ambiente monferrino originario.

In vendita presso:
